## LUNDS TEKNISKA HÖGSKOLA

Lunds universitet

Industriell Elektroteknik och Automation (IEA)

Olof Samuelsson, Docent

Universitetslektor

### **Risk and Vulnerability in Infrastructures Event in Lund 10-11 May**

Welcome to two days dedicated to risk and vulnerability in infrastructures!

On 11 May Ph.D. candidate Jonas Johansson, defends his dissertation “Risk and Vulnerability Analysis of Interdependent Technical Infrastructures – Addressing Socio-Technical Systems”. Having several international experts gathered to examine that work, I want to take the opportunity to arrange an afternoon seminar on risk and vulnerability in infrastructures on Monday 10 May. The seminar is supported by the Swedish IEEE PE/PEL Chapter. A printable program and some additional information is found at [www.iea.lth.se/seminars/](http://www.iea.lth.se/seminars/)

#### **Travel and hotel**

Hopefully it is convenient to travel to Lund on Monday and back home on Tuesday afternoon. We do not book travel or hotel rooms, but recommend the following hotels:

Grand Hotel	<a href="http://www.grandilund.se">www.grandilund.se</a>
Lundia hotel	<a href="http://www.lundia.se">www.lundia.se</a>
Hotel Concordia	<a href="http://www.concordia.se">www.concordia.se</a>
Hotell Planetstaden.	<a href="http://www.firsthotels.com">www.firsthotels.com</a>

#### **Registration**

The seminar is free of charge, but to organize it properly we want you to register. Please do this no later than 3 May by phone to 046-2229290 or e-mail to [Carina.Lindstrom@iea.lth.se](mailto:Carina.Lindstrom@iea.lth.se).

Welcome!

Olof Samuelsson
