Universitetslektor

### Power System Protection Event in Lund 25-26 February

Welcome to two days dedicated to power system protection!

On 26 February Zoran Gajic, industrial Ph.D. candidate from ABB Power Technologies, Substation Automation in Västerås, defends his dissertation on transformer differential protection. Having several international power system protection experts gathered, I want to take the opportunity to arrange an afternoon seminar on protection on Monday 25 February. The seminar is supported by the Swedish IEEE PE/PEL Chapter. More information including a printable program is found at [www.iea.lth.se/seminars/](http://www.iea.lth.se/seminars/)

#### Dinner and lunch

On Monday evening we organize a common dinner in downtown Lund. After the defense on Tuesday we serve lunch for all participants. You are most welcome to join.

#### Travel and hotel

Hopefully it is convenient to travel to Lund on Monday and back home on Tuesday afternoon. We do not book hotel rooms, but recommend the following hotels:

Grand Hotel	<a href="http://www.grandilund.se">www.grandilund.se</a>
Lundia hotel	<a href="http://www.lundia.se">www.lundia.se</a>
Hotel Concordia	<a href="http://www.concordia.se">www.concordia.se</a>
Hotell Planetstaden.	<a href="http://www.firsthotels.com">www.firsthotels.com</a>

#### Registration

The seminar is free of charge, but if you are coming we want to know that. Therefore please register before 15 February by returning this form or by sending me an e-mail. Several persons can register in one message. The following information is needed:

Name            Seminar: Yes/No            Dinner: Yes/No            Lunch: Yes/No

Welcome!

Olof Samuelsson
